SEASONAL SUSTAINABILITY

About the Campaign

Dragon Bags Seasonal Sustainability runs through until the 19th of December, when the final collections for 2025 will be done!

Your school is challenged to:

- Plan and promote one textile collection day in either month
- Complete the December upcycling classroom activities
- Share photos of your work across the months!

Collections will be automatically recorded through our system.

Every participating school that takes part in the upcycling activities will also receive a digital Upcycling Certificate.

Plan your Clothing Collection Day Drive

Choose a date in December for students and parents to bring in their bagged clothing donations.

Book your collection with the Roberts Recycling team for the same day, or within the days following your donation.

Plan a classroom lesson to complete the December upcycling activities and don't forget to take plenty of photos!

Promote your drive using the digital posters and parent letter included in this pack, and share it within your local community.

Finally, share your photos from the collection day with Roberts Recycling - we can't wait to see your school in action!

SEASONAL
SUSTAINABILITY

Clothes Recycling Collection Day

Help us to raise funds and protect the planet!

Drop off your clean and dry clothing items, bagged for recycling!

DATE TO BRING IN YOUR CLOTHES:

What we accept!

Good quality clean clothing, paired shoes, accessories and linens.

Bring bagged donations to our collection point before or on the day.

Contact our Reception Team / Administration to find out the details.

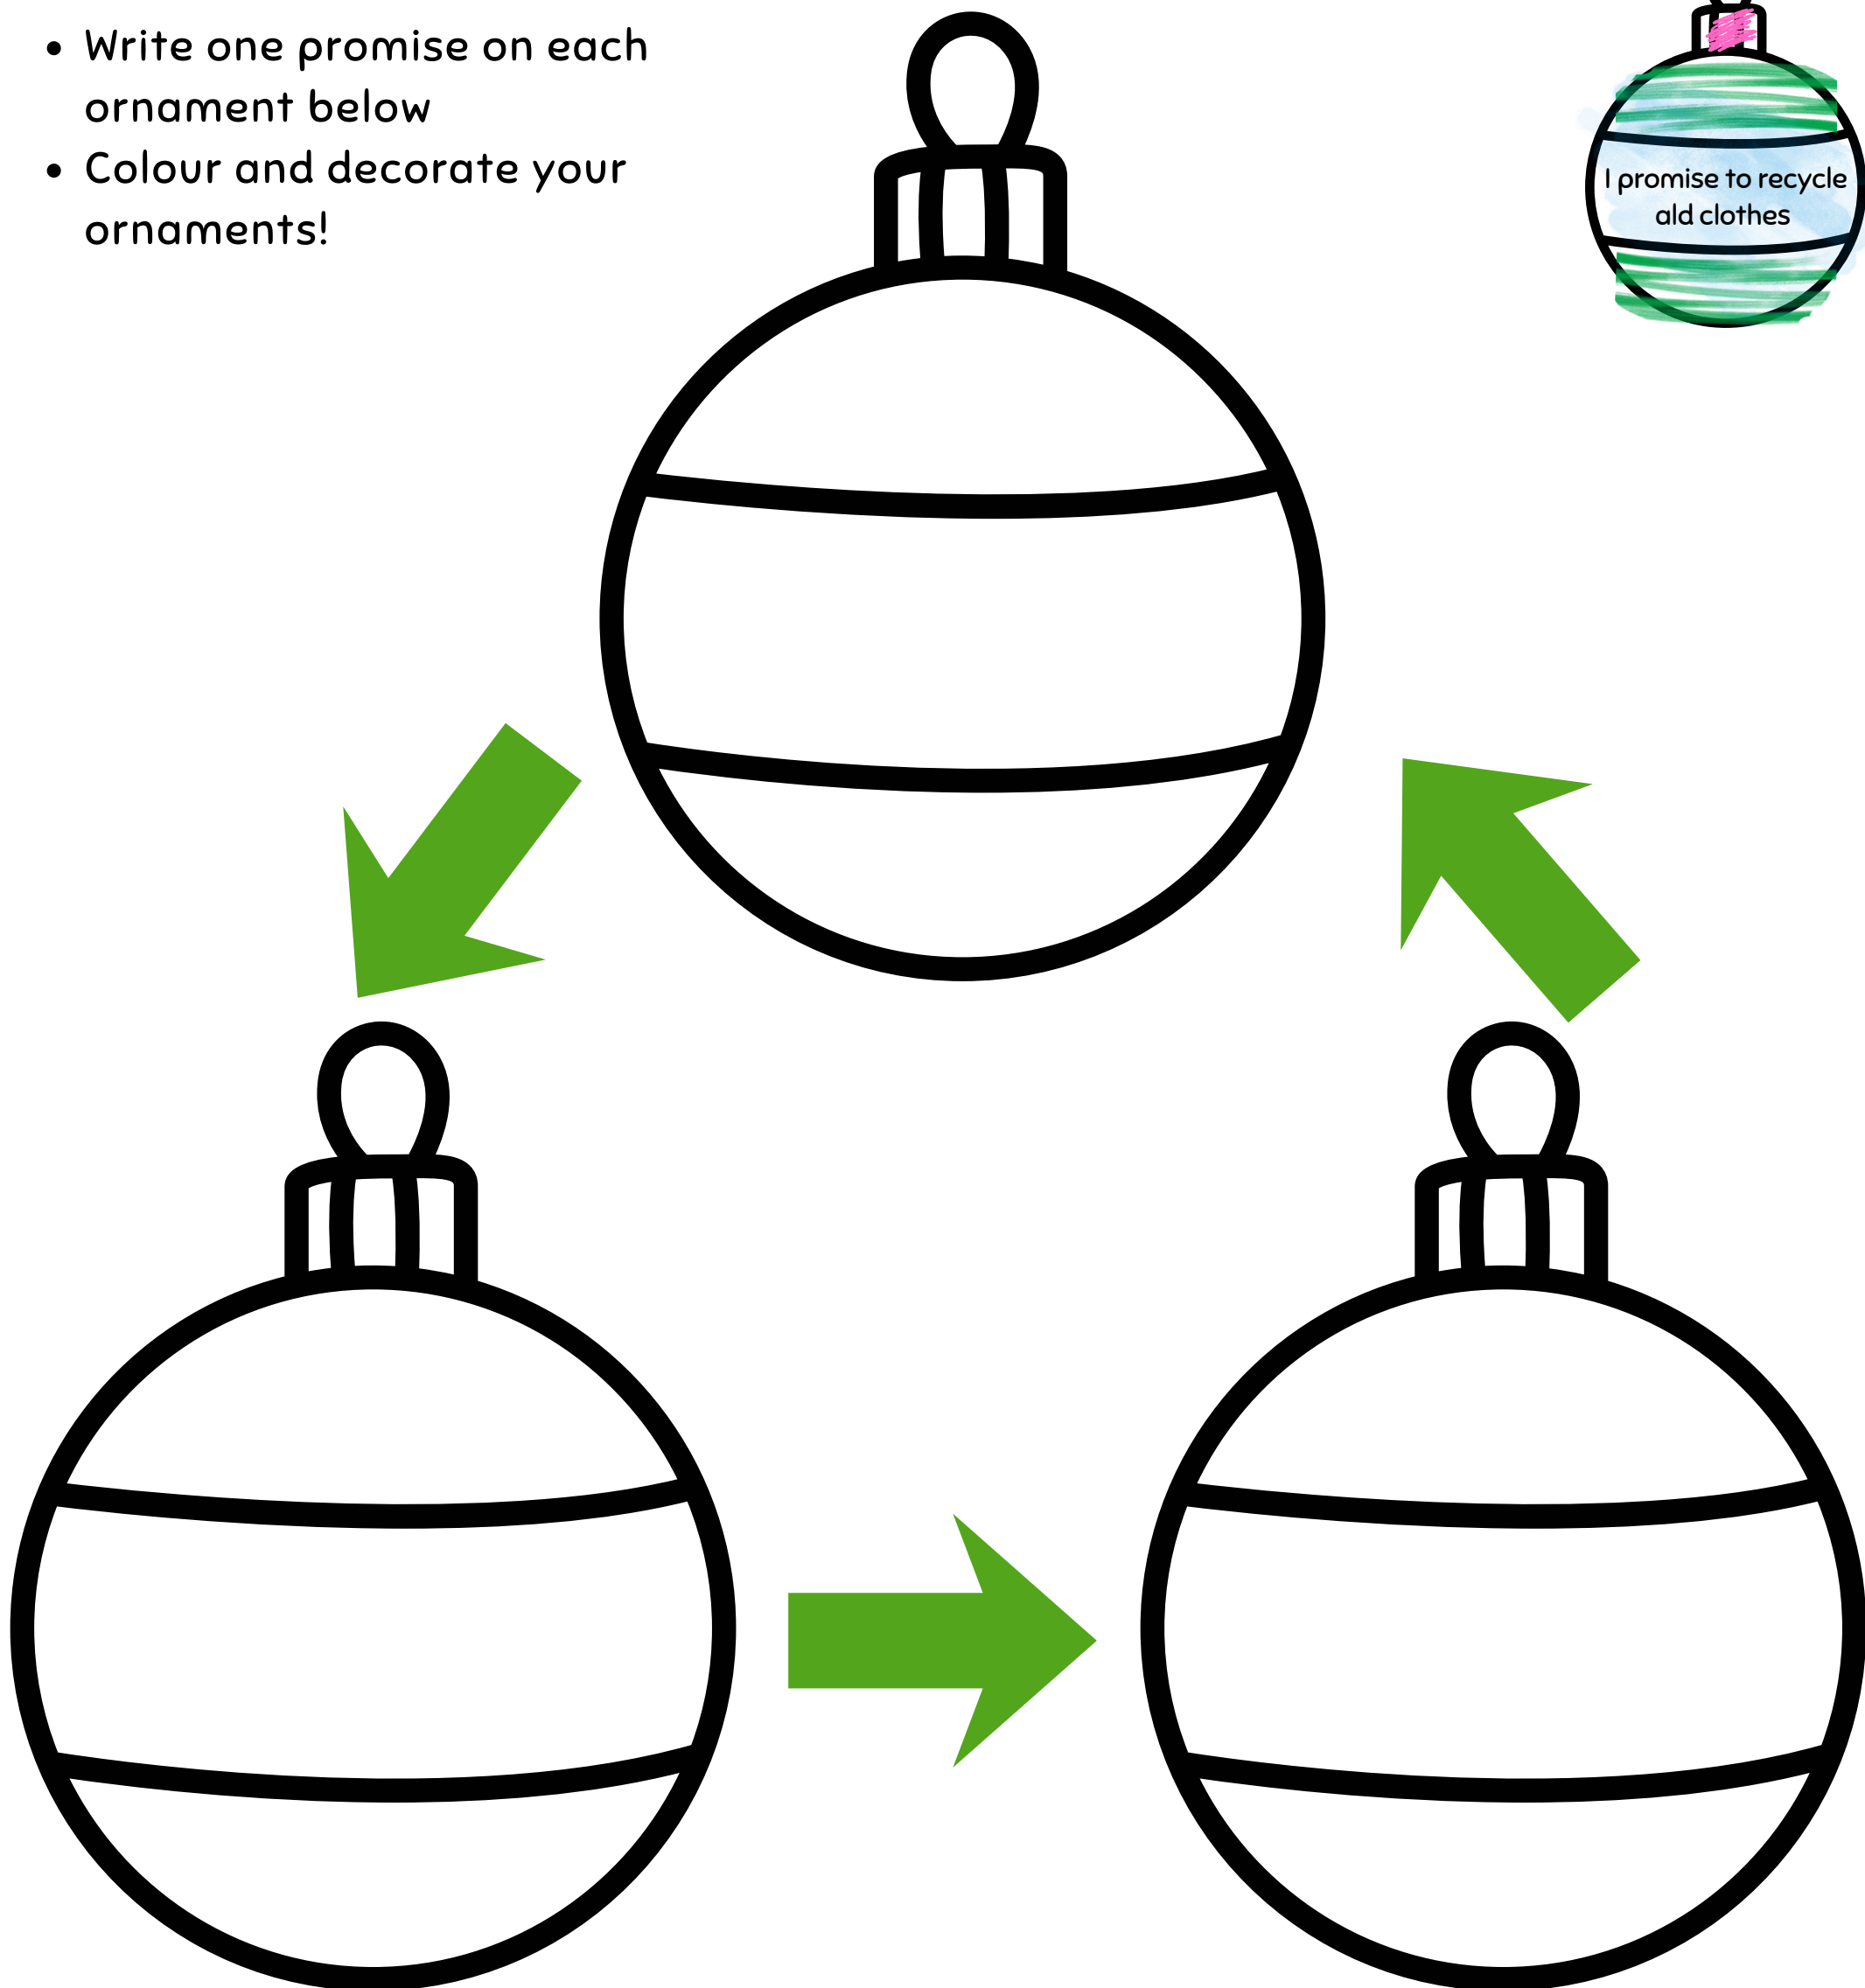

DECORATE YOUR ECO-ORNAMENTS!

Santa needs your help to keep the planet happy this Christmas!

Can you make three promises to show your love for the Earth?

- Write one promise on each ornament below
- Colour and decorate your ornaments!

WINTER ACTIONS TO HELP THE EARTH

In many places, winters are not as cold as they used to be. This is because the Earth is warming up. This means less snow in some parts of the world at Christmas.

Tick at least two things you can do to keep Santa's workshop icy!

☐ I will reuse gift bags or boxes

☐ I will donate a toy, book, or clothing item I don't need

☐ I will make a Christmas card instead of buying one

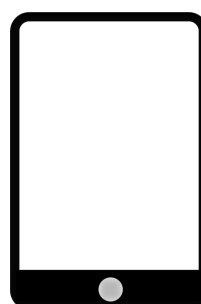

☐ I will turn off a light to save energy

☐ I will recycle any clothing I've outgrown

☐ I will turn off the TV or tablet when I'm done

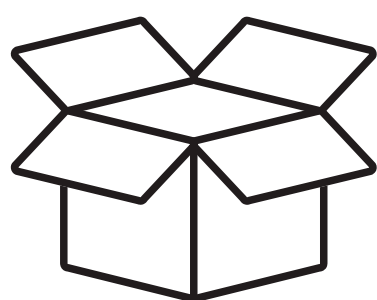

SANTA'S CHRISTMAS CLEANUP!

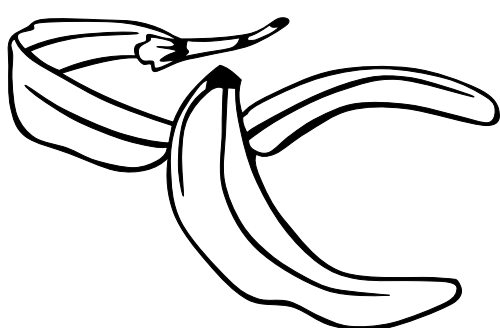

Look at the pictures below. Can you decide what to do with each item?
Draw a line to the correct recycling option!

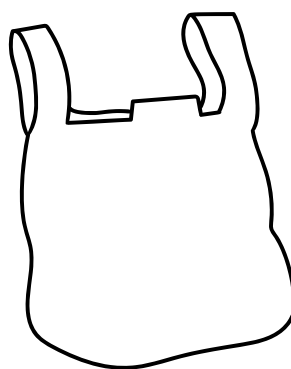

Remember – Some items can be reused and recycled!

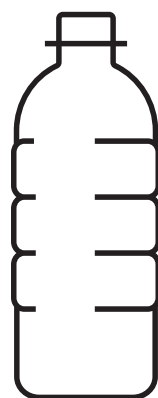

Cardboard

Fruit peel

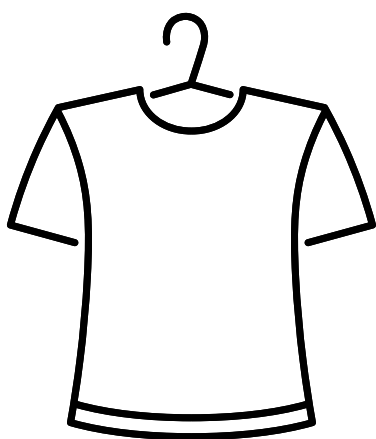

Shopping bag

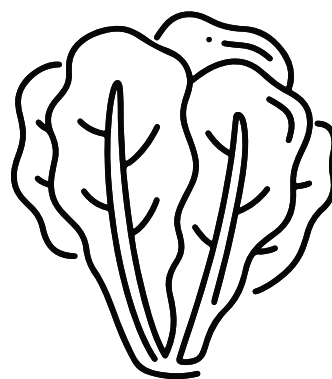

Plastic Bottle

Gift box

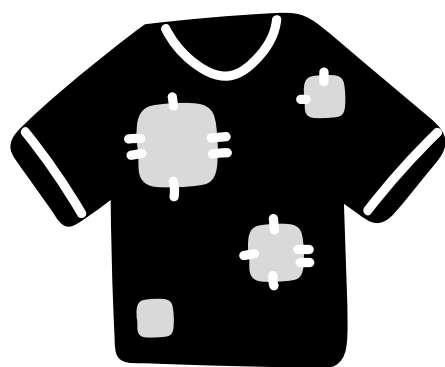

New t-shirt

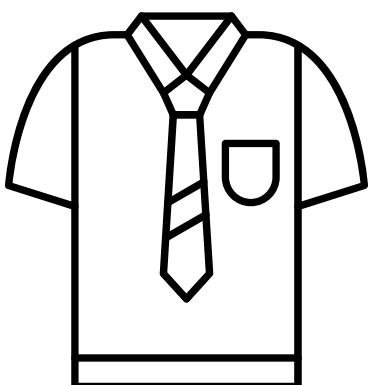

Leftover vegetables

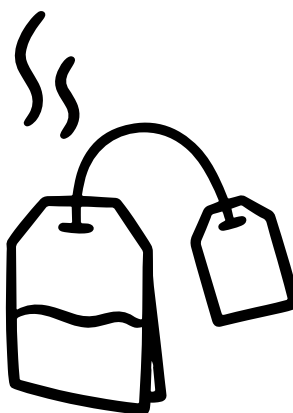

Trainers

Old t-shirt

School Uniform

Tea Bags

Clean socks

Re-use

Recycle

Compost

DESIGN YOUR OWN ECO-ELF!

Help Emma the Eco Elf get ready for a **GREEN** Christmas!

Design Emma's clothes using colours, patterns and icons to show that she loves the Earth!

For example, you could add:

- Honey bees (we can eat all kinds of fruit because of them, they help flowers grow by pollinating them!)
- Green colours
- Flowers
- Birds and animal footprints
- Leaves and plants
- The recycle symbol

Tis the season of Sustainability!

DESIGN YOUR OWN ECO-ELF!

Help Eddie get ready for a green Christmas!

Colour Eddie's clothes using colours, patterns and icons that show he loves the Earth.

For example, you could add:

- Honey bees (we can eat all kinds of fruit because of them, they help flowers grow by pollinating them!)
- Green colours
- Flowers
- Birds and animal footprints
- Leaves and plants
- The recycle symbol 

Tis the season of Sustainability!
